

## Poster Presentation Guidelines & Recommendations

### Prepare your Poster

Dimensions: No higher than 44" and no wider than 68" (poster board frames are approx. 4' X 6').

Organization: Title, abstract, purpose, methodology, results, implications, disclosures/conflict of interest, etc. should be organized as appropriate that best conveys the content of your abstract.

### NATA Poster Tips

- Text should be read at a distance of at least 4 feet from the poster.
- Overly detailed text tends to distract from your presentation
- Borders, background, and other visual elements should enhance the material presented rather than distract.
- Tables, graphs, and figures should be clearly labelled and at high resolution.
- We encourage a conclusion/implications section that include a clinical take-home message.
- All presentations should include a disclosure, conflict of interest, and/or external funding statement. If there are none, an indication should be listed stating: "The authors have no conflicts of interest to report."

### Display your poster

If you are having difficulty with finding the poster area, there will be a designated member at the registration desk that can help. You will receive a number that will guide you on where to mount your board.

### Present your poster

Your acceptance letter from the IATA will outline the specific details of your poster presentation including the exact time. The author or designed presenter will stand by the poster during the entire presentation time for attendees to review and ask questions about your poster.

Please note, the IATA will not allow distribution of any material, which includes information that could promote any specific company, product, or service.

### No-Show Policy

If you are unable to attend your presentation, please notify the IATA at [idahoata@gmail.com](mailto:idahoata@gmail.com) as soon as possible.

### Abstract Due Date 5/1/2023

Authors/Presenters will submit a written abstract detailing the poster presentation to [idahoata@gmail.com](mailto:idahoata@gmail.com) or [ctrif20@gmail.com](mailto:ctrif20@gmail.com) by 5/1/2023.
